PROFILE

Graduated from the University College for the Creative Arts in Epsom, with a BA (Hons) graphic design degree. A multi-disciplinary, passionate graphic designer, with a keen eye to detail. Creating innovative, aesthetically pleasing and timeless solutions. Designs which hopefully inspire and enable to communicate visual messages clearly.

SKILL'S AND EXPOSURE

Software:

Literate in Adobe InDesign, Illustrator and Photoshop; Dreamweaver, Flash and Microsoft Office both Mac and PC formats. Basic knowledge in HTML, AS2 and CSS

Other:

I have a keen interest in print finishing, digital interaction, design blogs and photography, using an array of different cameras and lenses.

I have great project management skills and organisation skills, juggling several projects at once. I have a keen eye on typography, and enjoy designing new and exciting typefaces, Enjoy's exhibitions/talks, music and a social down the pub.

EXPERIENCE

TBG London (Present)

Currently working with digital advertising agency TBG Digital. Working on clients such as Unicef and Vodafone, designing digital adverts, websites, landing pages and mobile sites. Working with Flash and Dreamweaver, enabling my digital skills to develop.

YCN (04/09 — 07/09)

My most recent internship was with YCN, based in London. Working with a variety of illustrators, graphic designers, animators and photographers. Working closely with clients such as Panasonic, Becks and small record label's. Also helping with project management updating the site's blog and brainstorming ideas.

Tanie Brand (01/09 — 04/09)

Having worked a 3 month internship as a junior graphic designer, across a range of branding and printed media projects and web design. Working with clients from around Europe and across the UK. With a diverse team all from different countries.

GR/DD (09/08 — 12/08)

Working 3 months as a Junior Intern designer with GR/DD, getting involved with a variety of different projects for some major clients such as Sony Playstation, The British Museum and The National Army Museum. It allowed me to work with more digital projects, such as web sites, interactive online games and back-end web coding and html.

Stylorouge (03/08 — 04/08)

Computer Arts (2007)

UNFOLD – EDITORIAL
